Climate Change Adaptation & Durango, CO Community Forests

Preparing for Climate Change

Natural resource managers face the tremendous challenge of developing and implementing management actions that help ecosystems respond to climate change. This workshop will:

- Provide information on the current and anticipated effects of climate change on the City of Durango Community Forests,
- Describe resources and tools that can be used to integrate climate change into management,
- Outline adaptation concepts and strategies in the context of sustainable forest management, and
- Identify actions that enhance the ability of forests and other ecosystems to adapt to changing conditions.

Real-world examples of adaptation projects will be featured, and participants will engage in a variety of interactive activities to identify climate change issues and potential adaptation actions.

Details

December 2, 2019
8:00 a.m. – 5:00 p.m.
Durango Public Library
1900 E 3rd Ave,
Durango, CO 81301
