August 2021

Colorado Plateau Climate Adaptation Workshop

As our climate shifts, natural resource professionals are beginning to focus their experience and creativity on ways to respond to changing conditions.

NPS Southeast Utah Group (SEUG), U.S. Geological Survey (USGS), Northern Arizona University (NAU), and the Northern Institute of Applied Climate Science (NIACS) are offering a Climate Adaptation Workshop. This hands-on training will:

- Provide information on the current and anticipated effects of climate change to grasslands in National Parks across the Colorado Plateau
- Describe resources and tools that can be used to integrate climate change into resource conservation and management
- Identify adaptation actions that can be incorporated into current and future natural resource projects

Real-world examples of adaptation projects will be featured, and participants will engage in activities to identify climate change issues and potential adaptation responses using a new Menu of Adaptation Strategies & Approaches for arid drylands and grasslands.

Details

DATES:

Pre-Workshop Webinar: June 17, 2021
@ 10-11 AZ/ 11-12 MT

Workshop: 3, 3-hour sessions in August

- August 23 @ 9 AZ / 10 MT
- August 25 @ 9 AZ / 10 MT
- August 30 @ 1 AZ / 2 MT

LOCATION:

Virtually via Teams & Zoom.

REGISTRATION:

To ensure your space, please register at <https://forms.gle/8GTXoPH1hA7Qszce6> by July 23.

PROGRAM CONTACTS & QUESTIONS:

Molly McCormick

RAMPS Coordinator & Ecologist, USGS
mmccormick@usgs.gov

Martha Sample

Research Associate, Northern Arizona University
martha.sample@nau.edu

Courtney Peterson

Climate Adaptation Specialist, NIACS, Colorado State University
courtney.peterson@colostate.edu
