

## Adaptation demonstration project: Additional Resources

### **Apostle Islands National Lakeshore - Coastal wetland vulnerability and adaptation**

**Project page:** [www.forestadaptation.org/APIIS-coastal-wetlands](http://www.forestadaptation.org/APIIS-coastal-wetlands)

Several locally relevant climate change assessments and reports were used by workshop participants whom assessed the climate-related vulnerability of coastal wetland systems at the Apostle Islands National Lakeshore. These resources were integrated into Step 2 of the Adaptation Workbook. Links and citations are provided in the list below.

#### **The Apostle Islands climate change vulnerability assessment:**
